Climate Change and the Consequences for the Military

How does climate change affect social realities and threaten peace?

Hoover Institution and Stanford University hosted a panel discussion on Climate Change and National Security in February, 2017. This is a spin on climate change that our congregations are not discussing. Take a peek at the panel discussion and also view the trailer to the documentary The Age of Consequences. See <https://www.youtube.com/watch?v=NHVGxzEajrg> for the panel discussion. The link to renting the film is this <http://theageofconsequences.com/> .
